

ABOVE

ME!

chapter 1

myself

About me

My name is Bethan Mari Bewell. I am $11\frac{3}{4}$ years old. I was born I was in the news paper because I was the ^{then} first baby to be born on christmas day in Gian Gwille hospital. This is a picture of me when I was a baby.

I am four feet 10 inches and my favorite subjects are English and science.

my hobbies

I have lots of hobbies but my favorite one is canoeing. I do a lot of canoeing in Bala lake that is in North Wales. Also I do windowfing and sailing. We have a mirror dinghy. My hobbies also include gardening, climbing and visiting historic places. In my bedroom I have 15 geraniums 4 spider plants that are over grown and lots of others. I have climbed a lot of mountains and the next mountain I am going to climb is Snowdon mountain.

I started sailing at an early age I was three in this picture

Also I like music. I have been playing instruments all my life

This is Snowdon mountain

Chapter two

my family

my mother

I have a mother who goes to college in Carmarthen. She is studying to be a teacher. She is a wonderful cook. Her hobbies include horse riding and drawing. When she retires she wants to own a big house with stables so she can keep horses. My mum is also a dress maker and she makes all of her own evening dresses.

My father

My father is an inspector in the police force. He has lots of hobbies like music, reading, windowfory, sailing and walking. My father has climbed Snowdon over stones. His favorite meal is Egg and chips. If he had a choice of any job he would like to be a teacher. When he retires he would love to live in Austria.

my sister

My sister is called Nancy. When she grows up she wants to be a Journalist. Her hobbies are horse riding and reading. Her favorite meal is sausage casserole. She is very fond of music.

Chapter three

my pets

Dogs

I have two dogs named Glaski and Perri. They are both Blue merle collies. Perri is only 3 months old but she is growing rapidly. Perri eats any thing you give her. On day she ate 2 pounds of grapes all by her self. She will also eat melon or Spaggetti she is also fond of tomatoes. Glaski on the other hand is the complete difference all he will eat is smugge my cat. He will chase her all day long but will not hurt her. Glaski really hates it if you stare at him. if you do he will pounce upon you and lick you to death. They are both very playful.

Glaski and perri

Cats Ruster

My two cats are the funniest cats you will ever see. Their names are Ruster and Smuggie. One day Mum was cooking in the kitchen. What she hadn't noticed is that she left a tin of mushroom sauce on the table. In no time at all Ruster was up on the table filling her face with mushrooms. The unusual thing was that she was not eating it with her nose in the tin she was clipping her paw in and licking the mushrooms off her paw. Mum quickly got her camera out and took this photo.

Smuggie

Smuggie is my favourite cat. She is very funny when she does her tricks like when you make the sound 'Bang' she rolls on to her back. Also when you tell her to sit she sits. The dogs are always playing with her. Sometimes I have to save her from an army of slugs. She is allergic to fish and prefers to eat dog food when she can.

Terrapino

Terrapino are very boring animals all they seem to do is sleep and eat. Their names are Simon and Garfunkle. My dad always thinks of weird names for our animals. These names are based on Simon and Garfunkle. When I am older I will not keep terrapino.

Ducks

I have three ducks called Sir Francis drake Sooty and Squeak. Francis has to be the fattest duck I have ever seen. He weighs over a stone. As for the other two we clip their wings but they still won't be able to fly because they are too heavy. They make a lot of noise in the morning.

Squeak as a duckling

Rabbits

I have one rabbit called Pom-Pom. She is really affectionate. If you cuddle her she will put her paws around your neck. Normally a dog would chase a rabbit but with Pom-Pom she chases my dogs and the ducks. She is brown and black with a white tail. It's because of her tail we called her Pom-Pom. In the picture there is a white rabbit her name was Gilbert. That was Pom-Pom's mother unfortunately she died last year of old age. She was seven. We did have another rabbit called Bulwin so it was Gilbert and Bulwin.

Fish

We have got four fish called dart, tinny blob, Gutoy and cwozemods. I didn't name these Nancy did. When you want to feed them you have to whistle over the tank and then they go mad sometimes they jump out of the water. One night the whole family went out for a meal. While we were out Schmuggie knocked over the tank. When we came home there was water every where but no fish. So we searched high and low finally we found her she was stuck onto a cord. we put her into the tank and she survived.

Chapter four

my Ideal home

The place where I would love to live is Austria. With all the Mountains and snow. And all the fir trees. The houses over there are so beautiful and the geraniums they put on the balcony. I would like to have a white christmas again, because I have only seen two. I have always wanted to live on a mountain. I also like it because they don't have any big factories which pollute the air.

This is a picture of a hotel in Austria in the background there is a cable car. I have not yet been to Austria but I am going next year.

Chapter five
Tv programmes

ITV

7.00
The Krypton Factor
GROUP B: HEAT THREE
Hosted by Gordon Burns. Tonight's contestants are from Derry, Merseyside, West Sussex, Cumbria. Guests are Sam Kelly and Gwyneth Strong.

a very good programme because it teaches children general knowledge. Parents like it because it help children to learn.

4.25 How 2

How can salt save a sinking seaman? Fred Dinenage, Carol Vorderman and Gareth 'Gaz Top' Jones have the answer.

See Telefax, page 76

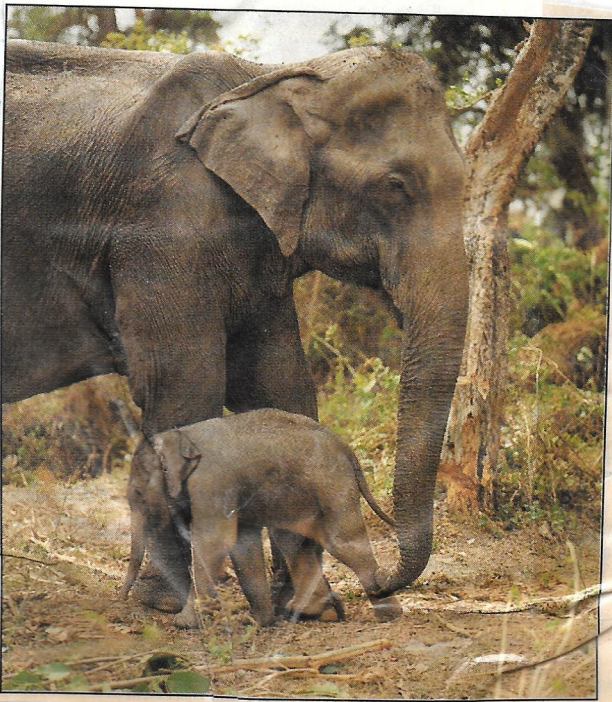

Director JEREMY CROSS
Producer TIM EDMUNDS
TVS Production

is an interesting programme about science I enjoy watching it and my parents think it is very good

THE TRIALS OF LIFE

David Attenborough looks at the problems which face parents and offspring in the wild. The solutions which the animal kingdom has come up with are astonishingly similar to ways that humans tackle the same difficulties. For instance, oats and eider ducks have crèches, while elephants have a whole series of female babysitters for their young. **8.00pm BBC1**

I think more children should watch programmes like The Trials of life because it tells them what they are doing to the world when they drop their litter on the streets and not in a bin

I enjoy watching Red Dwarf

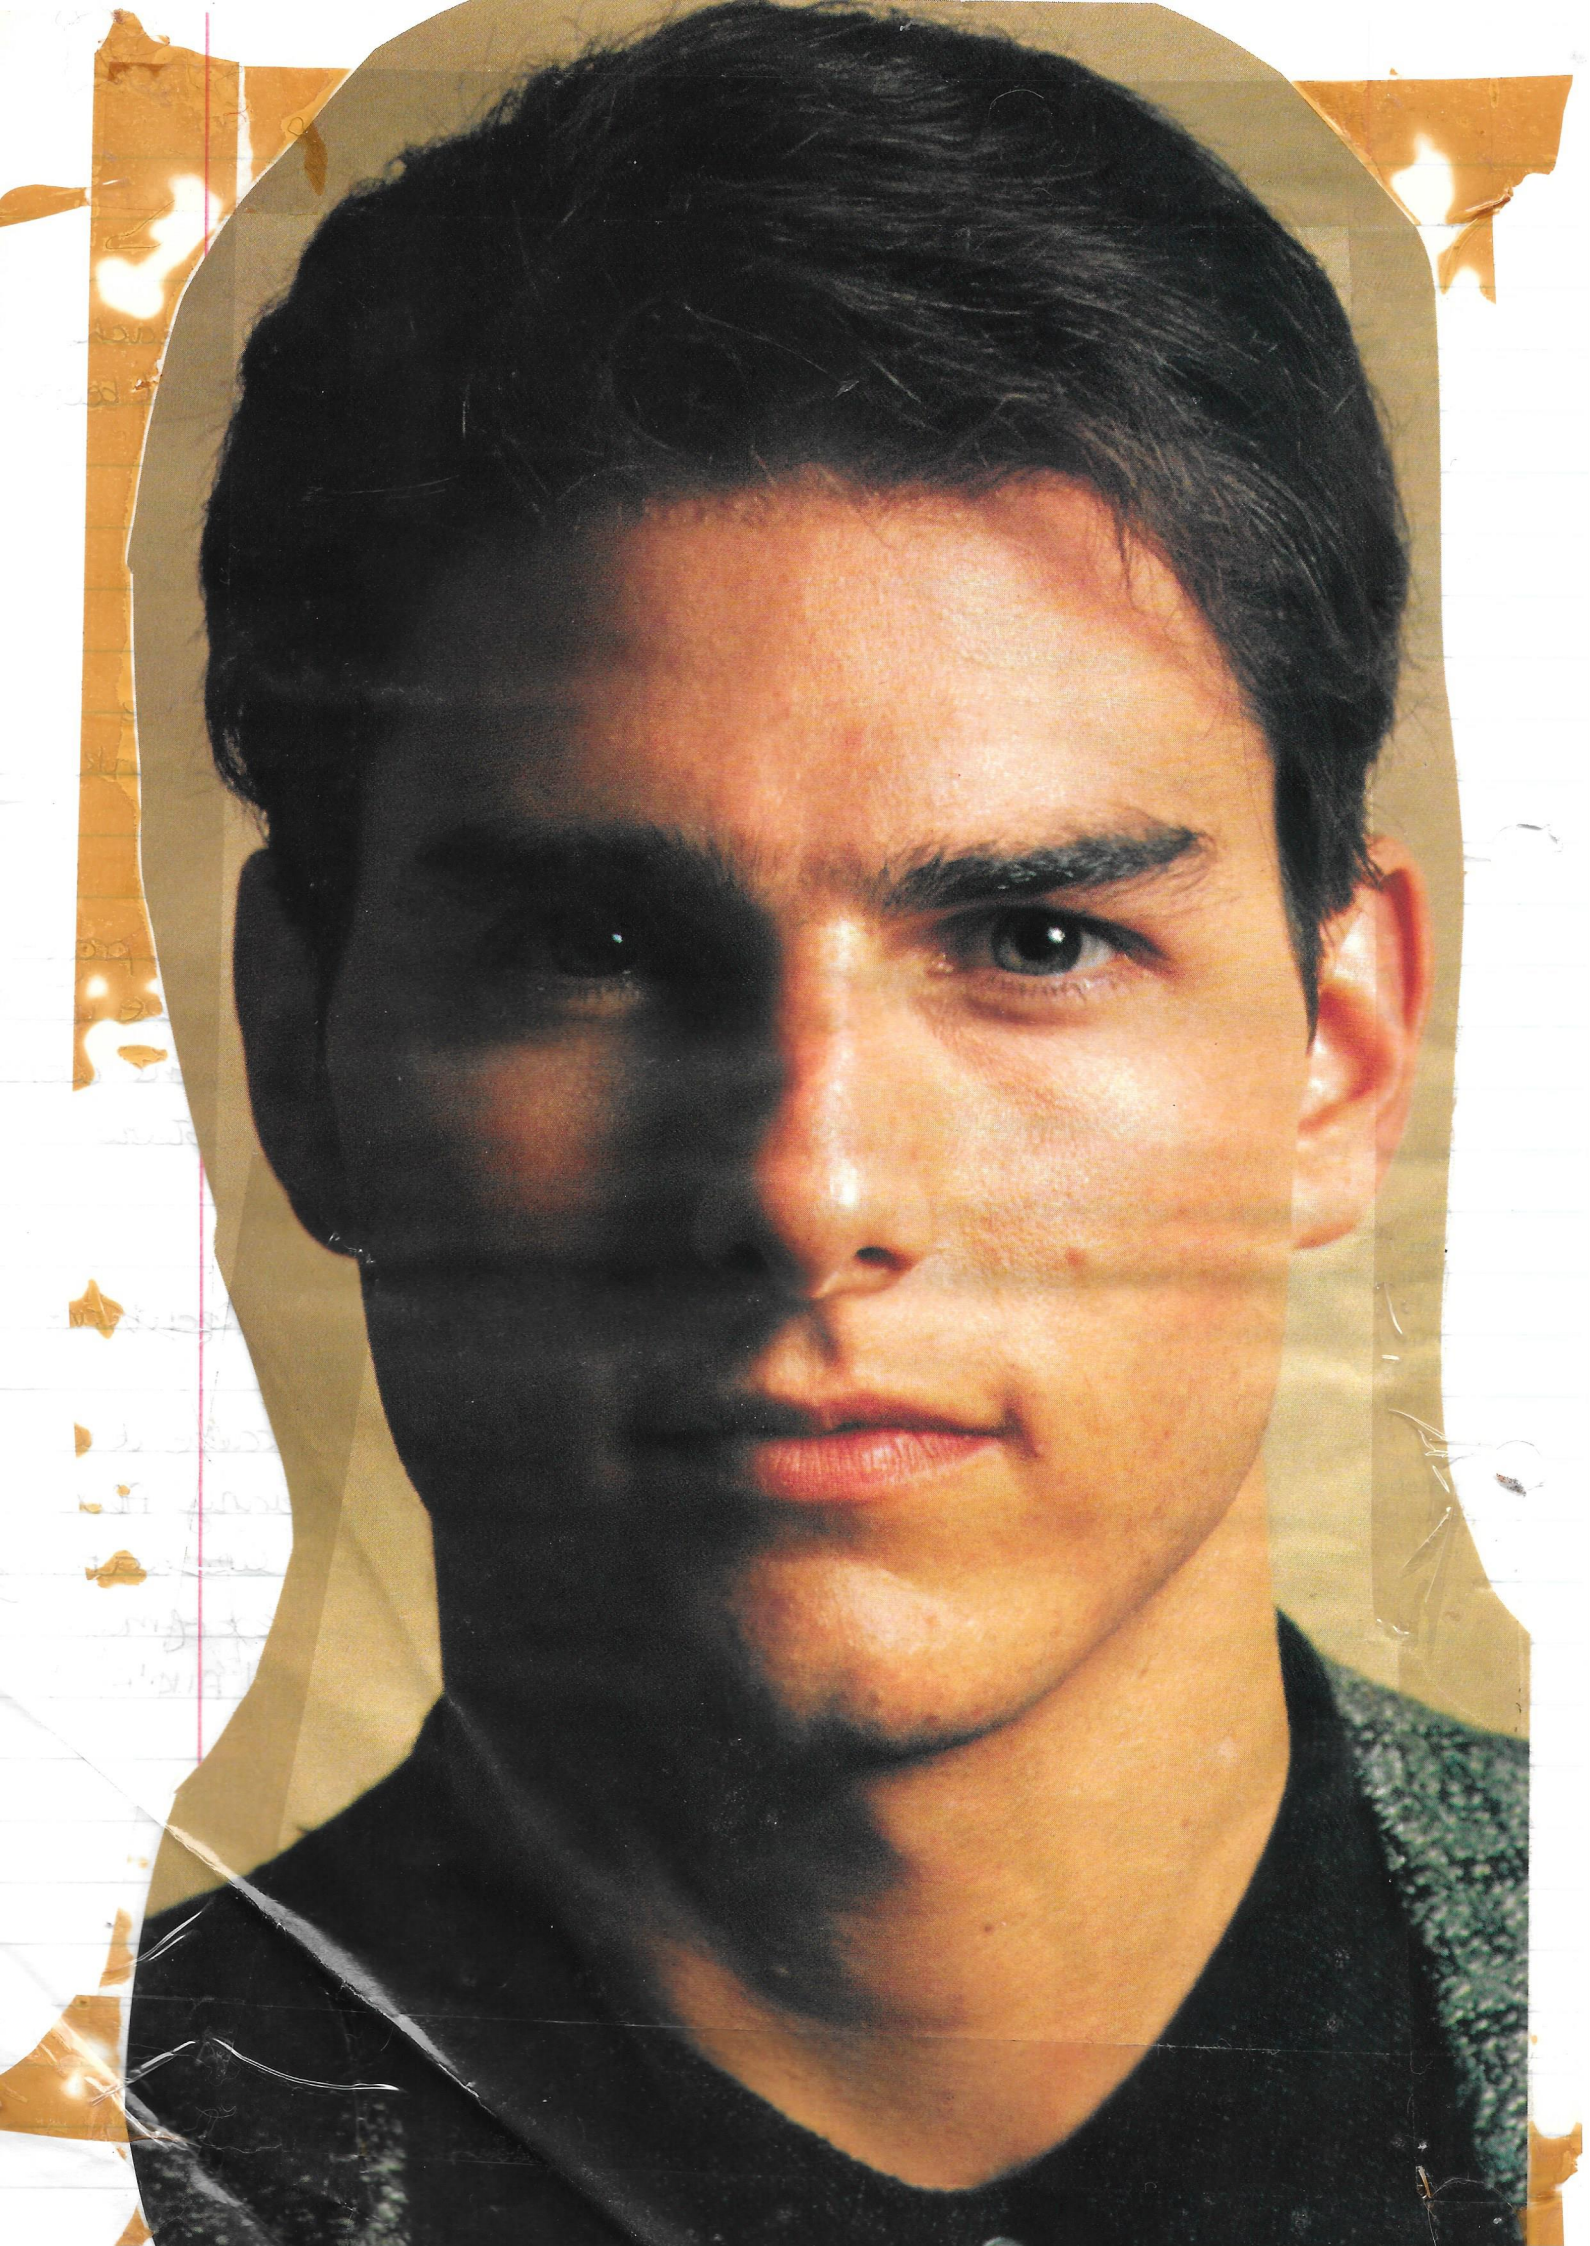

8.00pm Red Dwarf III . . .

. . . the Saga Continuums
The cult comedy series written by Rob Grant and Doug Naylor. *Marooned*. As *Red Dwarf* heads a collision course towards a minefield of black holes, they are forced to abandon ship and Rimmer find themselves marooned on an arid planet with only a pot noodle and a dogfood between them. There's no way Lister is eating that pot noodle.

because it is funny also I like watching best of magic and 'Allo 'Allo!

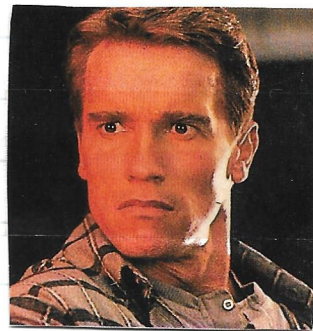

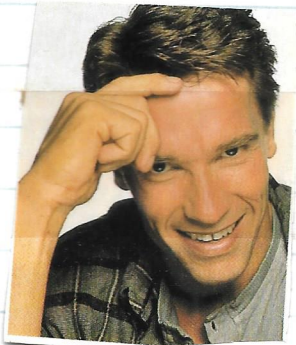

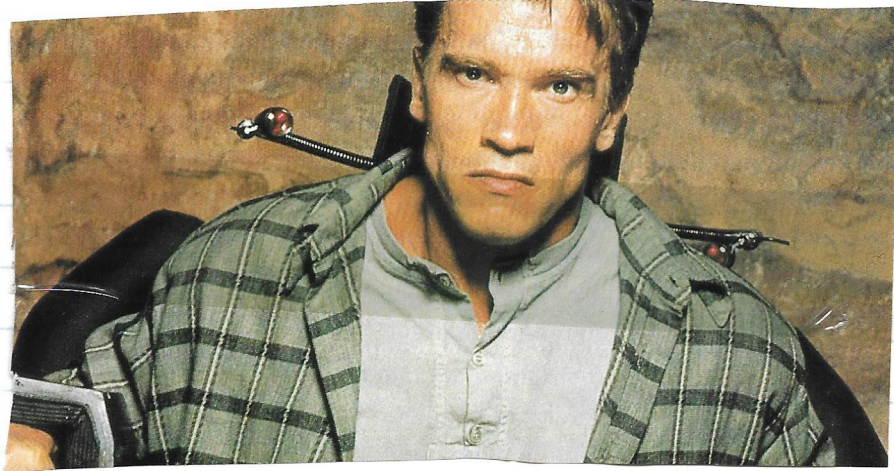

8.30pm 'Allo 'Allo!

A comedy series written by Jeremy Lloyd and David Croft. Café René is the venue for a clandestine deal involving five anonymous characters wearing paper bags over their heads.

Favourite Actors

My favourite actors are Arnold Schwarzenegger and Tom Cruise. I have seen all of his films except for *Raw Deal*. I like Arnold because he is muscley and his accent is weird.

The Perfect menu

Starters

Prawn cocktail

Sliced melon

Main course

Scampi in bread crumbs

Fillet of Plaice

Chicken Leg

(All meals served with chips
Potatoes, side salad or vegetables)

Desert

Knicker boer glory

choice of icecream

Fruit salad

Apple crumble

Wine list and Drinks

woodpcker cider

coke

Blue run

Then a choice of cheese and biscuits
and coffee

I hope you enjoy your meal at

The Mansion Restaurant

THE END

A- Very Good.

Beautifully structured and executed.
